BMW PERFORMANCE. ORIGINAL BMW ACCESSORIES.

JOY IS THE VITAL COMPONENT.

EXPRESSION WITHOUT COMPROMISE.

BMW Performance has just one goal: to express sporty, dynamic and innovative vehicle technology in the most distinctive way possible. And with no concessions when it comes to design and material quality.

Discover the unique potential of the Performance product line – and how to give your BMW the distinct expression of uncompromising excellence. And to ensure that your BMW turns even more heads.

1 BMW Performance front grille, black

Featuring the uncompromising design language of BMW Performance aerodynamic components.

1 BMW Performance carbon exterior mirror caps

Asymmetrically styled BMW Performance carbon exterior mirror caps with pure sporting aesthetics.

1 BMW Performance carbon front splitter

An impressive addition in ultralight carbon and with a sporty, sharp-cut design. Also available for vehicles with the M Aerodynamics package or Aerodynamics package.

2 BMW Performance carbon rear spoiler

For optimised lift at the rear axle and a clear sign of peak performance. Different variants available.

3 BMW Performance light-alloy wheels Double-spoke 269

Cast. Setting new standards for lightweight design in the aluminum low-pressure casting process. Precise, sporty and elegant – and with a considerable weight reduction. 18" and 19" versions available, depending on model.

4 BMW Performance light-alloy wheels Double-spoke 313

Cast. Impress with their clean look and the distinctive filigree design of the cross-section. With rolled rims for remarkably low weight. 18" and 19" versions available, depending on model.

Performance data for BMW 320d with BMW Performance power kit

Full-load performance of 320d

1 BMW Performance brake system

Providing a high degree of control, even in rain, with six-piston aluminum fixed calipers plus drilled and grooved brake discs. Visual highlight: the BMW Performance brake calipers in striking yellow paint.

2 BMW Performance exhaust system

For characterful sound and reduced exhaust back-pressure. Dual tailpipes in chrome-plated stainless steel, available for 6-cylinder and 4-cylinder petrol engines. Availability dependent on model.

3 BMW Performance chassis

Firmly tuned shock absorbers, with suspension struts and stabilizers configured to race-ready criteria. The result: extremely high agility. Not for xDrive models.

4 BMW Performance sport steering wheel I

In full Alcantara, flat-bottomed and with a white cross-stitch seam. Centred OLED display and two multi-colour LED indicators for efficiency and motor sport-related functions.¹ Three modes, EfficientDynamics, Sport and Race show, among other values, the EfficientDynamics

index, lateral forces with memory function plus a race timer with various Stop and Store functions.

5 BMW Performance aluminium pedal set

Simply impressive thanks to its precise workmanship and purist, technical look.

6 BMW Performance power kit

The Performance power kit for the BMW 320d, 320xd brings even higher performance levels from the vehicle with perfectly matched, high-quality components. They include a new engine control unit with modified data and an extremely powerful intercooler. An electric fan with increased output (600 W) completes a coherent and effective package. In figures (BMW 320d): maximum torque increases from 380 Nm to 420 Nm (up 40 Nm) and performance rises from 135 kW to 147 kW (up 12 kW).

This not only boosts acceleration from 0 to 100 km/h (-0.3 s compared with models without the power kit) but also elasticity values. In fifth gear, the vehicle needs 0.8 s less to accelerate from 80 to 120 km/h. BMW Performance power kits for various petrol and diesel-powered BMW 1 Series and BMW 3 Series models are also available.

1 BMW Performance sport steering wheel II

Fully covered in Alcantara for optimum grip in even extreme driving situations. Other striking features include a flat-bottomed rim and white cross-stitch. Only for vehicles without the Lane Departure Warning system.

2 BMW Performance aerodynamics package

The BMW Performance aerodynamics package sets unmistakable standards – and its uncompromisingly distinctive lines emphasise the dynamic character of your BMW X5 or BMW X6. The complete package consists of the BMW Performance front bumper, BMW Performance side sills and the BMW Performance diffuser on the rear bumper. It can be optionally expanded

with the BMW Performance rear spoiler and BMW Performance rear fins. The overall result makes a major impression: a powerfully striking appearance meets optimised lift values that make every ride in your BMW an even more intense experience. For vehicles without Active Cruise Control.

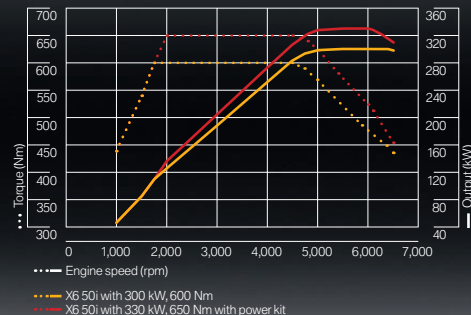

3 BMW Performance rear fins

BMW Performance rear fins emphasize the powerfully dynamic styling of the BMW X6.

4 BMW Performance light-alloy wheels Y-spoke 375, Ferric Grey

Cast, with rolled rim and consistently focused on weight reduction. By reducing unsprung mass in this way, steering responses on turn-in improves, for a more dynamic driving experience. The styling is every bit as eye-catching as the technology, thanks to the Bicolour design featuring BMW Performance lettering. 21" for the BMW X5 and BMW X5 M. Also available for the BMW X6 and BMW X6 M.

Performance data for BMW X6 50i with BMW Performance power kit
Full-load performance of X6 50i

5

5 BMW Performance power kit

The BMW Performance power kit for the BMW X6 50i greatly enhances the outstanding performance of its engine thanks to specially developed electronics that increase torque and power – and with the same emissions levels specified in the test cycle. In numbers: power output of the BMW X6 50i is raised from 300 to 330 kW and maximum torque increases to 650 Nm, available at just 2,000 rpm.¹ This affects both acceleration and elasticity values. Your BMW is 0.2 seconds faster from 0 to 100 km/h and 0.5 s quicker between 80 and

120 km (V8 engine in fifth gear). Also available for the BMW X6 35i. Redefining the limits of your BMW X6 – definitely something to look forward to.
